राहे पर खड़ा है, सदा से ठूँठ नहीं है। दिन थे जब वह हरा भरा था और उस जनसंकुल चौराहे पर अपनी छतनार डालियों से बटोहियों की थकान अनजाने दूर करता था। पर मैंने उसे सदा ठूँठ ही देखा है। पत्रहीन, शाखाहीन, निरवलंब, जैसे पृथ्वी रूपी आकाश से सहसा निकलकर अधर में ही टंग गया हो। रात में वह काले भूत-सा लगता है, दिन में उसकी छाया इतनी गहरी नहीं हो पाती जितना काला उसका जिस्म है और अगर चित्तेरे को छायाचित्र बनाना हो तो शायद उसका-सा 'अभिप्राय' और न मिलेगा। प्रचंड धूप में भी उसका सूखा शरीर उतनी ही गहरी छाया ज़मीन पर डालता जैसे रात की उजियारी चांदनी में। जब से होश संभाला है, जब से आंख खोली है, देखने का अभ्यास किया है, तब से बराबर मुझे उसका निस्पंद, नीरस, अर्थहीन शरीर ही दिख पड़ा है। पर पिछली पीढ़ी के जानकार कहते हैं कि एक जमाना था जब पीपल और बरगद भी उसके सामने शरमाते थे और उसके पत्तों से, उसकी टहनियों और डालों से टकराती हवा की सरसराहट दूर तक सुनाई पड़ती थी। पर आज वह नीरव है, उस चौराहे का जवाब जिस पर उत्तर-दक्षिण, पूरब-पश्चिम चारों ओर की राहें मिलती हैं और जिनके सहारे जीवन अविरल बहता है। जिसने कभी जल को जीवन की संज्ञा दी, उसने निश्चय जाना होगा की प्राणवान जीवन भी जल की ही भांति विकल, अविरल बहता है। सो प्राणवान जीवन, मानव संस्कृति का उल्लास उपहार लिए उन चारों राहों की संधि पर मिलता था जिसके एक कोण में

उस प्रवाह से मिल एकांत शुष्क आज वह ठूँठ खड़ा है। उसके अभाग्यों परंपरा में संभवतः एक ही सुखद अपवाद है – उसके अंदर का स्नेहरस सूख जाने से संख्या का लोप हो जाना। संज्ञा लुप्त हो जाने से कष्ट की अनुभूति कम हो जाती है।

(Case Based/Source Based Question)

34. Read the source given below and answer the questions that follow:

Nelson Mandela was tried for treason by the white South African government. He and seven other leaders were sentenced to life imprisonment in 1964 for daring to oppose the apartheid regime in his country. He spent the next 28 years in South Africa's most dreaded prison, Robben Island. Apartheid was the name of a system of racial discrimination unique to South Africa. The white Europeans imposed this system on South Africa. During the seventeenth and eighteenth centuries, the trading companies from Europe occupied it with arms and force, in the way they occupied India. But unlike India, a large number of 'whites' had settled in South Africa and became the local rulers. The system of apartheid divided the people and labelled them on the basis of their skin colour. The native people of South Africa are black in colour. They made up about three-fourth of the population and were called 'blacks'. Besides these two groups, there were people of mixed races who were called 'coloured' and people who migrated from India. The white rulers treated all non whites as inferiors. The non-whites did not have voting rights. The apartheid system was particularly oppressive for the blacks. They were forbidden from living in white areas. They could work in white areas only if they had a permit. Trains, buses, taxis, hotels, hospitals, schools and colleges, libraries, cinema halls, theatres, beaches, swimming pools, public toilets, were all separate for the whites and blacks. This was called segregation. They could not even visit the churches where the whites worshipped. Blacks could not form associations or protest against the terrible treatment. Since 1950, the blacks, coloured and Indians fought against the apartheid system. They launched protest marches and strikes. The African National Congress (ANC) was the umbrella organisation that led the struggle against the policies of segregation. This included many workers' unions and the Communist Party. Many sensitive whites also joined the ANC to oppose apartheid and played a leading role in this struggle. Several countries denounced

apartheid as unjust and racist. But the white racist government continued to rule by detaining, torturing and killing thousands of black and coloured people.

35. On Sunday, 25th February, the government suspended the Duma. Politicians spoke out against the measure. Demonstrators returned in force to the streets of the left bank on the 26th. On the 27th, the Police Headquarters were ransacked. The streets thronged with people raising slogans about bread, wages, better hours and democracy. The government tried to control the situation and called out the cavalry once again. However, the cavalry refused to fire on the demonstrators. An officer was shot at the barracks of a regiment and three other regiments mutinied, voting to join the striking workers. By that evening, soldiers and striking workers had gathered to form a 'soviet' or 'council' in the same building as the Duma met. This was the Petrograd Soviet. The very next day, a delegation went to see the Tsar. Military commanders advised him to abdicate. He followed their advice and abdicated on 2 March. Soviet leaders and Duma leaders formed a Provisional Government to run the country. Russia's future would be decided by a constituent assembly, elected on the basis of universal adult suffrage. Petrograd had led the February Revolution that brought down the monarchy in February 1917.

36 On the basis of the source below answer the questions based on it:

"India is the seventh largest country in the world. India has a land boundary of about 15,200 km and the total length of the coastline of the mainland, including Andaman and Nicobar and Lakshadweep, is 7,516.6 km. India is bounded by the young fold mountains in the northwest, north and northeast. South of about 22° north latitude, it begins to taper, and extends towards the Indian Ocean, dividing it into two seas, the Arabian Sea on the west and the Bay of Bengal on its east. The Latitudinal and longitudinal extent of the mainland is about 30°. Despite this fact, the east-west extent appears to be smaller than the north-south extent. From Gujarat to Arunachal Pradesh, there is a time lag of two hours. Hence, time along the Standard Meridian of India (82°30'E) passing through Mirzapur (Uttar Pradesh) is taken as the standard time for the whole country. The latitudinal extent influences the duration of day and night, as one moves from south to north."

36.1 Name any four countries larger than India. (0.25×4)

36.2 What is the Standard meridian of India and through which location it passes in India? (0.5×2)

Un grand rôle de la télévision dans la vie quotidienne

Le téléviseur est devenu un article indispensable (essential) dans une salle de séjour. Plus de 90% des familles indiennes ont un poste de télévision. Toute la famille s'assied (sits) ensemble pour regarder des chaînes (channels) variées. De nos jours, on dîne dans la salle de séjour, et pendant le week-end on déjeune aussi devant le petit écran (small screen). La télévision offre les émissions pour tous âges. Il y a des journaux télévisés, des feuilletons (daily soaps), des dessins animés (cartoons), des émissions (shows) de variétés, des émissions sportives, des émissions politiques, des films et aussi des documentaires informatifs. Aujourd'hui la télévision est devenue une drogue. On passe plus de trois heures par jour devant le téléviseur. À la télé, les émissions préférées ne sont pas les émissions d'actualité et les documentaires. On cherche surtout (mainly) à se distraire (fun). On regarde surtout les films et les variétés. Les gens ont tort. Il vaut mieux choisir ses programmes.

La famille Lenoir dîne ensemble dans la salle de séjour mais pas devant le petit écran. M. Lenoir aime bien regarder la télé. Au contraire, Mme Lenoir préfère raconter sa journée pendant le dîner. C'est le seul (only) moment où tous les membres de la famille se retrouvent après une journée intense. Ils dînent paisiblement (peacefully). Mme Lenoir

empêche (prevents) ses enfants de regarder les émissions. Après le dîner, les Lenoir passent la soirée devant le téléviseur. Mais chacun (each) a sa préférence. Émilie aime la cinquième : une chaîne éducative et Roger adore les dessins animés. Mme Lenoir préfère les feuilletons de M6. M. Lenoir veut voir un film sur «Canal+». Il n'y a qu'un poste de télévision pour toute la famille. Donc, ils font du zapping (surfing), c'est-à-dire changer chaînes.
